

Palestine's Olives: A Struggle for Survival

7,000 Olive Trees
were burned and uprooted by the settlers
since the beginning of 2020.

130 Areas
were closed off by the Israeli
occupation; denying farmers
access to their lands.

The areas include 4,000
dunums (4km²) of olive
trees.

50,000 Dunums (5km²)
of olive trees are located within the apartheid wall.

Israeli occupants deny
farmers access to their trees.

Yet allow settlers to
steal the harvest of
olives.
